Transportation solution helps fleets comply with FMCSA mandate

The screenshot displays the FleetLocate Compliance dashboard. At the top, the navigation bar includes 'Map', 'Dashboard', 'Alerts', 'Reports', 'Admin', 'Messaging', and 'Compliance'. The 'Compliance' section is active, showing a 'Company Summary' with 120 Total Drivers, 85 On Duty, 42 Driving, 43 Sleeper, and 35 Off Duty. Below this is a 'Compliance Notifications' table with columns for Description, Date, and Phone. The notifications include: 'Peter Parker has been involved in an Accident at 123 Main St, Irvine, CA 92736' (09/18/2017 14:31:54), 'Bruce Wayne has approved daily log for 09/12/2017' (09/15/2017 13:27:28), and 'Clark Kent is driving Unit #451 with a safety defect' (09/09/2017 13:46:49). The 'Drivers Status' table has columns for Full Name, Last Known Location, Unit, Drive Time Remaining, Time Until Break, On Duty Time Remaining, Current Status, Engine Status, and Last Updated. The drivers listed are Bruce Banner (Texas, USA, Unit 5, 10:50 Drive Time Remaining, 7:49 Time Until Break, 13:48 On Duty Time Remaining, DRIVING, IDLE), Steven Rogers (Ukiah, CA, TRK-2, 0:00 Drive Time Remaining, 0:00 Time Until Break, 0:45 On Duty Time Remaining, ON DUTY, ON), and Matthew Murdock (Irvine, CA, Unit 18, 7:49 Drive Time Remaining, 0:45 Time Until Break, 9:22 On Duty Time Remaining, DRIVING, OFF). The 'Daily Logs' table has columns for Full Name, Hours Driving, Phone, and Hours. Bruce Banner has 10 hours driving, Steven Rogers has 0, and Matthew Murdock has 12. The 'Potential Violations' table has columns for Full Name, Driver ID, Phone, and Violation Type. The violations listed are: Matthew Murdock (Driver ID 868, 555-555-5555, Violation Type: Matthew Murdock has not signed his logbook), Bruce Wayne (Driver ID 772, 555-555-5555, Violation Type: Bruce Wayne has not signed his logbook), and Clark Kent (Driver ID 661, 555-555-5555, Violation Type: Clark Kent has not signed his logbook). The dashboard is powered by Gorilla Safety and includes a footer with 'Ready' and 'Customer Support - Email: support@fleetlocate.com - Phone: 877.819.0015'.

Spireon Inc., Irvine, Calif., announced a new *FleetLocate* Compliance solution designed to help fleets of all sizes comply with the Federal Motor Carrier Safety Administration's (FMCSA) electronic logging device (ELD) mandate, which will take effect Dec. 18.

Powered by Gorilla Safety, Houston, Texas, *FleetLocate* Compliance makes it easy for fleet managers to oversee driver hours in accordance with the new regulatory requirements.

FleetLocate offers flexible configuration options to accommodate mixed fleets of different vehicle types, such as trucks that need to track hours of service (HOS) and vans or cars that don't. *FleetLocate* can also utilize data from onboard telematics, as well as sensor data from

trailers, containers and other mobile assets, giving fleet managers complete visibility over their entire fleet with one simple, affordable application.

The system also provides early warnings of potential violations in real time, so managers may adjust schedules as needed. Additionally, FleetLocate Compliance provides alerts on drivers who began a trip without completing the required vehicle inspections.

FleetLocate Compliance includes the FleetLocate Shift mobile app for drivers, providing a convenient way to maintain record of duty logs and vehicle inspection reports from a smartphone, tablet or rugged handheld device.
